KUMAR FREDERICK

JUNIOR FULL STACK DEVELOPER | SOFTWARE DEVELOPER

Washington, DC 20011 | (202) 213-9159 | kumarfrederick@gmail.com

Portfolio: [Insert Live Vercel Link] | GitHub: github.com/sabler911 | LinkedIn: linkedin.com/in/kumar-frederick

PROFESSIONAL SUMMARY

Highly adaptable Software Developer with a BA in Game Art & Animation and an Associate degree in Network Technologies. Experienced in building and deploying full-stack web applications using React, Node.js, and PostgreSQL. Combines a strong creative background in 3D design with technical expertise in modern web development, object-oriented programming, and IT troubleshooting.

TECHNICAL SKILLS

Frontend: React, HTML5, CSS3, Vite, Responsive Web Design

Backend: Node.js, Express, RESTful APIs, PostgreSQL

Languages: JavaScript (ES6+), C++, C#, Java, SQL

Tools & Deployment:
Git, GitHub, Vercel, Render, Postman

Creative & Media:
3D Studio Max, Maya, Adobe Creative Suite (Photoshop, Illustrator, After Effects)

Networking:
Cisco Networking, IT Troubleshooting

SELECTED SOFTWARE PROJECTS

AI Recipe Generator

React, Node.js, Express, Groq API

- Built a full-stack application that generates dynamic recipes based on user-inputted ingredients using the Groq AI API.
- Integrated RESTful API endpoints, input validation, and a responsive UI.
- Deployed the frontend on Vercel and the backend on Render with environment-based configuration.

Job Application Tracker

React, Node.js, Express, PostgreSQL

- Developed a CRUD application to track job applications and manage status, company, and follow-ups.
- Designed and implemented secure RESTful API endpoints with a PostgreSQL database.
- Created a responsive UI with real-time data updates and a clean, intuitive layout.

Kicks Store (E-Commerce)

React, Vite, CSS

- Engineered a React-based e-commerce store with a functional shopping cart, dynamic price calculation, and product management.
- Utilized React hooks (useState, useEffect) and array methods to manage cart state and totals.
- Built a responsive, modern UI optimized for desktop and mobile devices.

PROFESSIONAL EXPERIENCE

School Bus Driver
Mar 15, 2004 – Aug 25, 2026

Office of the State Superintendent of Education (OSSE) | Washington, DC

- Safely operated school buses to transport students to and from schools and program events across the District of Columbia.
- Ensured student safety, followed DC regulations and agency policies, and maintained a clean and safe vehicle.
- Completed pre-trip and post-trip inspections, reported maintenance issues, and maintained accurate transportation records.

IT & Technical Support (Internship)
2015

Cyberwatch Club / Ridgeback Network Defense

- Gained hands-on experience in network security, troubleshooting, and system administration.
- Configured Cisco wireless networks, ensuring secure and stable connectivity for college projects.
- Utilized object-oriented programming (C++, Java) to develop, test, and debug code.
- Delivered 3D design assets and maintained technical documentation for team projects.

Audio/Visual Technician
1997 – 1999

Avcom, Washington, D.C.

- Provided rapid technical support for 30+ live events, resolving AV issues within an average of 5 minutes to minimize downtime.
- Installed cabling infrastructure for 8 conference rooms, achieving a zero post-install failure rate.
- Delivered exceptional customer service, maintaining a 95% satisfaction rating among 100+ end users.

EDUCATION & CERTIFICATIONS

BA in Game Art & Animation
2010 – 2012

Westwood College, Arlington, VA

Associate Degree in Network and Wireless Technologies
2015 – 2017

Montgomery College, Germantown, MD

Technical Support Fundamentals
2025

Google

3D Max Certification
2007

3D Training Institute

Leviton Certified Installer

Montgomery College
